Re: NPDES General Permit #UTG040006, Co-Op Mining Company, Bear Canyon Mine, ACT/015/025, Emery County, Utah

Mr. McNeil,

This letter is in response to our phone conversation on January 21, 1993, regarding the status of our Discharge Permit, which expires on April 30, 1993.

In our conversation, you explained that the general permit is being revised prior to issuance of the new permit, and that we would be covered under the old permit in the event that the new one is not in place by April 30. We wish to request a statement in writing verifying this coverage under the old permit for the benefit of the Division of Oil, Gas & Mining.

This letter also serves as a notice of our intent to renew the discharge permit, and we would like to be kept informed as to the proceedings and status on the new general permit. Please inform us when your Division wishes us to file a Notice Of Intent on the new permit.

Sincerely,

Charles Reynolds
Compliance Coordinator
